Dear Sir:

In response to the Office Action dated January 2, 2003, please amend the above-identified U.S. Patent application as follows:

IN THE CLAIMS

*Please amend claim 9 as follows:*

9. (Amended) A mobile electronic commerce system, comprising:
- a service providing server for controlling said mobile electronic commerce system, said service providing server having a first wireless communication unit; and
  - at least one electronic wallet having a second wireless communication unit and a storage, for paying, via said wireless communication unit, a required amount from said electronic wallet and for receiving a product or a service, or a required permission, from a supply side;
- wherein said electronic wallet has means for downloading data indicative of an electronic payment card from said service providing server, said data including a prepaid amount of money, management information and a program for defining operation of said
